Conscious, Natural Sustainability
AnantaVana @ Kabini

About AnantaVana

AnantaVana is a unique and exclusive sustainable reforestation project nestled in the serene landscapes of Kabini. Designed for nature enthusiasts, AnantaVana offers a sanctuary where individuals can reconnect with the natural world. In collaboration with VanaTvam and Indus Herbs, this project fosters a community of like-minded landowners who are deeply committed to preserving the rich biodiversity of Kabini. Each one-acre plot within AnantaVana serves as a personal retreat, offering a tranquil space for rejuvenation, while also playing a vital role in maintaining the ecological balance of the region. AnantaVana is not just a land investment but a conscious lifestyle choice for those who wish to immerse themselves in nature's embrace.

70% forest cover | **400** bird species | **60** different mammals

"Conscious, Natural Sustainability is the mantra at VanaTvam".

CONSCIOUS COMMUNITY

Our intent is to evolve conscious communities who care about nature as well as socialize to take care of each other's well being

NATURAL FARMING

Natural farming aims to maintain the natural balance of ecosystems and avoids the use of hazardous pesticides and fertilizers and promotes biodiversity.

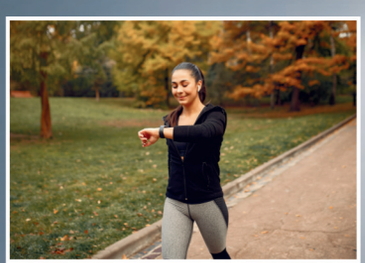

SUSTAINABLE PLANET

This concept of sustainability emphasizes the importance of collaboration and cooperation in achieving sustainable and equitable use of the earth's resources.
